JOB POSTING – POSTDOCTORAL FELLOW

Area of Research: Social Psychophysiology: Personal and Professional Thriving in Diverse Societies

Description of duties: Designing and administering field studies and experiments on the role of friendship networks and colleague networks on social interactions, stress and resilience, and career achievements. This will involve recruitment, regular interaction with, and monitoring of adults from the community. The postdoctoral fellow will also be responsible for supervising undergraduate research assistants and collaborating with graduate students in the lab. Training will include physiological data collection, “scoring” physiological data, large-scale data management, advanced statistical analyses, and open-science practices.

Salary: $35,000 (CAD) plus benefits

Please note that should the minimum rates stipulated in the collective agreement be higher than rates stated in this posting, the minimum rates stated in the collective agreement shall prevail.

Required qualifications: PhD in Psychology, Neuroscience, Statistics, or a relevant field; Experience designing and running social psychological or physiological studies or simulations; Writing and publishing peer-reviewed publications; Training in higher-level statistics with knowledge of R, SAS, or SPSS.

Preferred qualifications: Experience with community sample participants or field studies; Experience with psychophysiology, neuroendocrinology, or advanced quantitative methods; Engagement with open science practices.

Application instructions
All individuals interested in this position must submit a 2-page research statement, CV, and two reference letters to Elizabeth Page-Gould (liz@psych.utoronto.ca) by April 15, 2018. The reference letters can be sent separately to Elizabeth Page-Gould by the referees. Applications will be reviewed and a postdoctoral fellow will be selected by mid-May 2018.

Closing date: April 15, 2018
Supervisor: Elizabeth Page-Gould
Expected start date: September 1, 2018
Term: 2 years
FTE: 1

Employment as a Postdoctoral Fellow at the University of Toronto is covered by the terms of the CUPE 3902 Unit 5 Collective Agreement.

This job is posted in accordance with the CUPE 3902 Unit 5 Collective Agreement.

The University of Toronto is strongly committed to diversity within its community and especially welcomes applications from visible minority group members, women, Aboriginal persons, persons with disabilities, members of sexual minority groups, and others who may contribute to the further diversification of ideas.
